Helpful Books for Teachers and Pupils

You have widely used, in the past, many of the Palmer Company books; we remind you therefore of the following New Books (just published)

DIACRITICAL MARKS. By N. E. Hamilton. An easy method for teaching a very important and much neglected subject. Diacritical marks appear in all standard dictionaries and every person is supposed to be familiar with them; but heretofore few attempts have been made to teach them in the schools. Without a knowledge of them many mistakes in pronunciation will be made. This little book will fill a long felt want in Grade and High Schools. Price 20 cents.

EDUCATION AND THE ARMY. By Captain Elbridge Colby, U. S. Army. The Author before entering the service was an Instructor in Columbia University and the University of Minnesota. His book tells what the Army is doing and has done in its schools. It has been a great work. You should know about it. His book is controversial and is sure to interest educators. Price \$1.00.

INFORMAL ORAL COMPOSITION. By George Pickett Wilson, (University of Wisconsin). This is something new upon this important subject. We speak a hundred times where we write but once. Yet there are a hundred books about how to write our thoughts, to one about how to effectively speak them. Professor Wilson's book shows young men and women how to gain this coveted power to express themselves, on any subject and under all kinds of circumstances. Think what this will mean to one applying for a job, or in selling goods, or in a thousand other situations in life. A fine text for adoption in High School and Colleges. Price, \$1.20.

Pupils Are Critical

and want motion pictures of professional quality. Over half of the theaters of the country use the Powers 6-B motion picture machine pictured here. More schools use it than any other. Other cheap and expensive machines break down in the hands of pupil operators; Powers keeps going. Such is the experience of cities like Richmond and Newark and others. You should profit by the experience of others.

SOCIAL CIVICS

BY

WILLIAM BENNETT MUNRO

Professor of Municipal Government in Harvard University

and

CHARLES EUGENE OZANNE

Teacher of Civics in the Central High School, Cleveland, Ohio

Price \$1.72

This new text includes beside a survey of governmental framework and functions, many topics which are ordinarily spoken of as questions in economics, sociology, and international relations. Thus it gives the student a grasp of our national activities as they really exist; not merely a knowledge of the details of administration.

In dealing with controversial questions the authors have written with marked impartiality, and present both sides of the case for judgment. Group Problems and Questions at the ends of the chapters re-enforce and drive home the lessons of the text.

Up-to-date, complete, fair-minded, practical—is this not the book for your civics classes?
